

## Trail locations

**Coonamessett Corridor, northern section**  
 Begin this hike at Bartolomei Conservation Area (667 Sandwich Road). From the parking area, take the short, roped (accessible) trail along the edge of Pond 14, then continue straight through the woods to Andrews Grove. You will soon cross a small foot-bridge at the pond's SE corner. Fork right up a short incline and appreciate the great view at the top. Proceed downhill and along the edge of the bog, where you can see the Coonamessett River restoration work underway. Turn around, retrace your steps over the hill, across the bridge and along the pond back to Bartolomei. Once you reach the accessible trail, turn right to hike the woods before returning to the parking area. Distance: ~2 miles.

**Beebe Woods**  
 Begin and end your hike at Kelly Woodland, (318 Sippewissett Road). Before you go, please download the Beebe Woods & Peterson Farm trail map from our website and aim to hike the perimeter of the Woods (& Farm). Distance: 3+ miles

*For more information & trail maps visit*  
[300committee.org/land-trails](http://300committee.org/land-trails)

map from our website first, just in case. Distance: ~ 3.8 miles.

From the entrance just off Gifford Street, follow the dirt road all the way around the reservoir. Whether you go clockwise or counter-clockwise around the Pond, you'll (almost) always have a view of the water; clockwise, it's on your right; counter-clockwise, it's on your left. Make sure you download the trail

**Shallow Pond Woodlands**  
 From the parking lot directly across from 235 Thomas B. Landers Road, take the green trail all the way to Brevoegel Ponds Conservation Area. At the first intersection/bench, stay right, and the trail will lead you to a rest stop with views of Shallow Pond. Continue on, staying right at the next intersection and following the green signs until you come out of the woods on the north side of the ponds at Brevoegel. Explore the manmade ponds, fenced-in vernal pool restoration area, and the grasslands. Loop around the fenced area and back to the green trail. Total distance: ~2.75 miles.

**Long Pond**  
 From the entrance just off Gifford Street, follow the dirt road all the way around the reservoir. Whether you go clockwise or counter-clockwise around the Pond, you'll (almost) always have a view of the water; clockwise, it's on your right; counter-clockwise, it's on your left. Make sure you download the trail

## Trail descriptions

### Hike 4 Falmouth Trails!

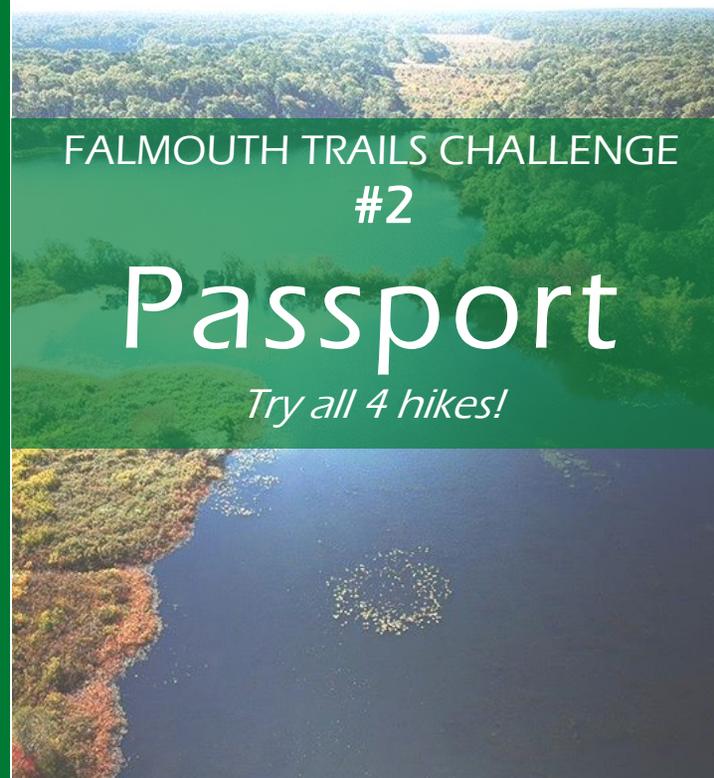

Get outside and enjoy nature !

The 300 Committee Land Trust challenges you to find your way on four local trails. Share your adventures with us and be entered to win a raffle prize.

Keep track of your outings on this Falmouth Trail Challenge passport. To submit for the raffle, take a selfie of you on the trail and post it to social media [#T3CTrailsChallenge] OR send us an email with your trail photo [saveland@300committee.org ].

*Falmouth Trails Challenge is an effort by The 300 Committee to inspire youth and their families to get outside!*

MARK YOUR TRAILS <i>with a picture of something you observed on your hike</i>	
Beebe Woods	Long Pond
