

## AmeriCorps Service Member Position with TerraCorps & The 300 Committee Land Trust

TerraCorps is a nonprofit organization working at the intersection of land conservation, sustainable farming, and local food systems to build local nonprofit capacity while growing the next generation of emerging leaders committed to making a difference at the community level. We value the power of local nonprofits to best understand and serve their communities, and our goal is to help them succeed by providing them access to the AmeriCorps national service model to build organizational capacity.

TerraCorps partners with a network of nonprofits in Massachusetts and Rhode Island focused on community needs related to local land conservation and sustainable agriculture. These partners act as service sites for a new cohort of AmeriCorps service members annually. Service members are paired with a site supervisor who provides guidance and mentorship while they learn to manage community programs and projects over a 1,700-hour service term. **The 2026–27 service year runs September 8, 2026, to July 30, 2027.**

The 300 Committee Land Trust is interviewing candidates for a Land Conservation Coordinator (LCC). The LCC will engage with the Director of Stewardship to manage volunteers on community service projects, educate or train individuals in environmental stewardship or environmentally conscious practices, and complete three capacity building projects.

Potential projects include:

- Engage volunteers, local schools, and town partners in hands-on wildlife and biodiversity projects such as vernal pool certification, habitat enhancement, and native species support initiatives to educate the community, strengthen conservation efforts, and promote healthier ecosystems for native plants and wildlife.
- Lead a biodiversity monitoring project using iNaturalist to document species observations on local conservation parcels while providing training and support to volunteers and community participants in partnership with The 300 Committee (T3C) or the Town to promote nature-based education and outdoor exploration.
- Engage volunteers in ongoing stewardship projects such as invasive species removal and trail cleanup, participate in outreach and educational speaker series programs, and have opportunities to develop and lead volunteer projects aligned with their interests and community needs.

Applications for this position must be submitted via the TerraCorps online application. The position description for the LCC at The 300 Committee Land Trust can be found at [TerraCorps Available Member Positions](#).
