

AmeriCorps Service Member Position with TerraCorps & The 300 Committee Land Trust

TerraCorps is a nonprofit organization working at the intersection of land conservation, sustainable farming, and local food systems to build local nonprofit capacity while growing the next generation of emerging leaders committed to making a difference at the community level. We value the power of local nonprofits to best understand and serve their communities, and our goal is to help them succeed by providing them access to the AmeriCorps national service model to build organizational capacity.

TerraCorps partners with a network of nonprofits in Massachusetts and Rhode Island focused on community needs related to local land conservation and sustainable agriculture. These partners act as service sites for a new cohort of AmeriCorps service members annually. Service members are paired with a site supervisor who provides guidance and mentorship while they learn to manage community programs and projects over a 1,700-hour service term. **The 2026–27 service year runs September 8, 2026, to July 30, 2027.**

The 300 Committee Land Trust is interviewing candidates for a Land Stewardship Coordinator (LSC). The LSC will engage with the Director of Stewardship to manage volunteers on community service projects, educate or train individuals in environmental stewardship or environmentally conscious practices, and complete three capacity building projects.

Potential projects include:

- Assist The 300 Committee (T3C) and the Town of Falmouth in a collaboration to improve trail safety and accessibility across conservation lands by assessing signage needs and installing updated directional signage that helps visitors feel safer and more comfortable using the trails.
- Support T3C's annual conservation restriction monitoring program by learning and helping train volunteers to use the Landscape app for documenting monitoring visits, strengthening volunteer confidence and capacity to identify and report potential encroachments or violations on protected properties.
- Recruit, train, and collaborate with volunteers through digital training sessions for the Landscape app used to monitor more than 100 protected parcels, as well as through recurring stewardship events such as Trail Crew and Coffee Clean Up that engage volunteers in conservation and trail maintenance activities.

Applications for this position must be submitted via the TerraCorps online application. The position description for the LSC at The 300 Committee Land Trust can be found at [TerraCorps Available Member Positions](#).
